

We Palestinians throughout

The PFC is an intergenerational collective of activists and organizers committed to achieving Palestinian social and political liberation by confronting systemic gendered, sexual, and colonial violence, oppression, and dispossession. Today on the 77th commemoration of the Nakba, we express deep gratitude to as the original stewards of this land in deep solidarity with their continued presence and struggle. The PFC stands with its co-strugglers against all forms of racialized and genocidal state violence.

WE DEMAND

An immediate and permanent energy and arms **embargo** on the Zionist state.

A permanent **end** to the air, land, and sea blockade and siege on Gaza.

Freedom for all Palestinian political prisoners and the abolition of colonial, imperialist, and reactionary carceral regimes across the world.

This continued practice of resistance reminds us that the past and present are tethered to one another and are central to making a liberated future. This is our method and practice of asserting our history, and our **belonging to Palestine**, a willful defiance to the act of forgetting, and a challenge to Zionist erasure of Palestine and Palestinians.

Since 1948, the Palestinian people have been subjected to settler colonial and imperialist violence. On May 15 we remember our on-going Nakba, an ever-unfolding catastrophe of dispossession, forced exile, violent subjugation, ruthless military occupation, imprisonment, and death at the hands of the Zionist settler colonial project.

From the Northern Galilee

Zionism aims to destroy the very fabric of Palestinian society and disrupt family structures—attempting to eliminate the future of our people, and the bearers and backbones of our resistance.

The Continued Struggle

"Returning to Iqrith"

We are committed to the reunion of our people, communities, and homeland.

Across historic Palestine, throughout the shatat, and through our intergenerational connections, diverse and rich traditions, histories, and organizing practices, the Palestinian Feminist Collective affirms that we are one people.

The *Nakba* of 1948 never ended. It is ongoing and we have been witnessing, for over 20 months, the **accelerated** genocide of our beloved Palestinian people in Gaza, The Northern West Bank, and across Palestinian Diaspora Communities.
